

REPUBLICAN

PARTY OF GUAM

LETTER TO THE EDITOR

February 1, 2026

The most pressing issues facing the people of Guam today are straight forward-Cost of Living. Jobs. Healthcare. Solutions to address these three issues continue to be tackled by your Republican policy makers at all levels. They are a far cry from the issues that this current Administration and the mini-Minority have championed for the past seven years. Elections serve a great purpose. Your government has to have a finger on the pulse of our island community. Their collective work directly impacts the daily lives of each and every Guam resident. A vote in the 2026 Guam Elections must be for a vote for candidates that share your values and respects all of our life experiences. Republican candidates understand that our key economic drivers can be modernized, but need the public sector to prioritize their collective work and see that those plans come to fruition. In turn, jobs are created on Guam primarily through private sector growth, driven by consumer demand, business investment, entrepreneurship and common-sense public policy. Healthcare has been neglected by Democrat representatives because their egos and lack of vision and execution have got in the way over the last seven years. Republicans have remained committed to improving healthcare and not perpetuating sick care. The most pressing issues will be decided on by you in the voting booth. Vote for responsive governance-a straight forward vote for Republicans up and down the ballot on election day.

Shawn Gumataotao
Chairman
Republican Party of Guam
