### **FOR IMMEDIATE RELEASE**

March 5, 2025

The Republican Party of Guam issues the following statement on President Donald J. Trump's Joint Address to Congress:

*"In his Joint Address to Congress, President Donald Trump offered a glimpse into his short-term plan for the next year after what has been an incredible 44 days of his second presidency. He is delivering on his promise to restore common sense to our Nation. Whether it has been border policy, investments into US manufacturing and directives to make federal agencies more efficient, the outlook in the coming year will be good for all Americans both in the US Mainland and here in the Western Pacific. This is Republican leadership-it is what Guam and all of America voted for. America is back!"*
